

10th AUGUST 2026

MALARIA DOCUMENTATION

Description

This data contains 2,855 observations, covering 2000–2024, with estimated malaria incidence (cases per 1,000 population) across 117 geographic units, including countries, WHO regions, and the global aggregate.

Variables included in the analysis and their descriptions

DIM_GEO_CODE_TYPE

Geographic unit

GEO_NAME_SHORT

Name of the geographic unit

DIM_TIME

Year of data of malaria incidence

RATE_PER_1000_N

Malaria incidence rate per 1,000 — N

RATE_PER_1000_NL

Lower uncertainty limit — NL

RATE_PER_1000_NU

Upper uncertainty limit — NU
